## **AAPC Statement on Mexico Tariffs**

**WASHINGTON, D.C.-** Governor Matt Blunt, president of the American Automotive Policy Council, today issued the following statement:

“We are strong supporters of the administration’s United States Mexico Canada Agreement because it makes significant improvements to the NAFTA, but it relies on duty free access to be successful. The imposition of tariffs against Mexico will undermine its positive impact and would impose significant cost on the US auto industry.”

The American Automotive Policy Council (AAPC) is a Washington, D.C. association that represents the common public policy interests of its member companies FCA US LLC, Ford Motor Company and General Motors Company.
