## **AAPC Statement on Senate Passage of USMCA**

**Washington, D.C.** – Governor Matt Blunt, president of the American Automotive Policy Council, today issued the following statement after the Senate passed the USMCA:

“The USMCA will provide certainty and enhanced competitiveness between our North American trade partners. President Trump and his administration, together with bipartisan leaders in the House and Senate, have created a 21st Century trade agreement that includes vital components to address currency manipulation and the acceptance of vehicles built to U.S. regulatory standards. This trade agreement will serve as a model for future trade agreements, and help grow the U.S. economy as a whole, especially the auto sector and its manufacturing supply chain.”

The American Automotive Policy Council (AAPC) is a Washington, D.C. association that represents the common public policy interests of its member companies FCA US LLC, Ford Motor Company and General Motors Company.
