June 6, 2013

President Barack Obama
The White House
Washington, D.C. 20500

Dear President Obama:

As the United States continues to negotiate the Trans-Pacific Partnership, it is imperative that the agreement address currency manipulation. Exchange rates strongly influence trade flows, and, in recent years, currency manipulation has contributed to the U.S. trade deficit and cost us American jobs. Incorporating currency provisions in the agreement will strengthen our ability to combat these unfair trade practices and help to create a level playing field for American workers, businesses, and farmers.

Undervalued exchange rates allow other countries to boost exports of their products and to impede exports of ours. They also contribute to trade imbalances and market access limitations that make it difficult for U.S. companies to compete in foreign countries. According to the Peterson Institute for International Economics, a minimum of one million American jobs have been shipped overseas as a result of currency manipulation alone. The consequences are not singular to the U.S.; misaligned currencies are distorting the entire global economy.

Despite U.S. efforts to address currency manipulation at the G-20, major currencies remain significantly undervalued. Including currency disciplines in the TPP is consistent with and will bolster our ongoing efforts to respond to these trade-distorting policies. It will also raise TPP to the 21st century agreement standard set by the Administration. More importantly, it will create a level playing field for American businesses and workers and prevent more U.S. jobs from being shipped overseas.

Thank you for your consideration of this letter. We look forward to working with you to address undervalued exchange rates in the TPP agreement.

Sincerely,

MICHAEL H. MICHaud
