

AAPC Statement on the Make It In America Manufacturing Agenda

WASHINGTON, D.C. – American Automotive Policy Council President Matt Blunt issued the following statement on the ‘Make It In America’ manufacturing agenda.

“The Make It in America agenda that Congressman Hoyer introduced today is an exciting step forward in the advancement of American manufacturing expertise. American manufacturers are world leaders in cutting-edge manufacturing processes and the U.S. auto industry is a successful model of how increased investment in manufacturing skills and technology is key to economic growth.

“Over the past few years Chrysler, Ford and GM have undertaken a strategic overhaul that has resulted in U.S. automakers breaking new ground in advanced manufacturing techniques. That success has played a large role in their economic resurgence and is a model for the nation.”

The American Automotive Policy Council, Inc. (AAPC) is a Washington, D.C. association that represents the common public policy interests of its member companies Chrysler Group LLC, Ford Motor Company and General Motors Company.
